

## **Random Number Generator Certificate**

**Operator:** N/A  
**Operator URL:** N/A  
**Software provider:** *SJH Studio*  
**Software provider URL:** N/A

This is to certify that iTech Labs has evaluated the Random Number Generator (RNG) by SJH Studio and found that the RNG complies with the relevant standards.\*

The RNG uses a well known algorithm to generate random numbers. The numbers generated by this RNG have passed Marsaglia's "diehard" tests for statistical randomness.

iTech Labs has evaluated card shuffling for single deck (without joker).

The shuffling tests were conducted on large enough samples to give the calculations sufficient statistical power.

iTech Labs has found that card sequences are unpredictable, non-repeatable and uniformly distributed.

The certified code for the RNG has been fingerprinted.

Date: 04 February 2016

\*The RNG was tested according to UK Gambling Commission standards- Remote gambling and software technical standards July 2015.

Disclaimer.

While it is not possible to test all possible scenarios in a laboratory environment, iTech Labs has conducted a level of testing appropriate for a component test of this type.
